UCI-ASCE Student Chapter

STUDENT PAPER CONTEST NOTICE

Students may participate in one or both of the following two groups. They must be currently enrolled at an accredited university/college taking at least 6 semester units. A letter from the Dean, Department Chair or Major Professor attesting to the student status must be submitted along with the paper. Papers are to be submitted as a word or text file (MS Word preferred) via E-Mail, on a diskette or CD-ROM, along with a hard copy. Papers shall be prepared on 8.5" x 11.0" pages, including figures, tables, etc. Type shall be 12 point, single space, with 1.0 inch margin on all the 4 sides.

GROUP A: Individual Student Papers based on the following topic: "Affordable Housing and Adoption of Green Building Approaches"

This group of papers may be based on a generic thought process or any case study of an ongoing or completed project (within the past one year) or research/experimental work. They should emphasize how his/her paper/project would contribute towards building a peaceful world for humanity. *This is an individual student paper and without any joint authors.* Length of full paper for this contest shall not exceed three (3) pages including figures, tables, etc.

GROUP B: Student Papers based on a project or research/experimental work:

This group of papers are to be based on a project or research/experimental work performed individually or with an academic advisor/ professor or a project leader. Length of full paper for this contest shall not exceed eight (8) pages including figures, tables, etc.

Winners in both groups will receive cash awards and certificates, and may have an opportunity to present their papers at the Conference. *The deadline to submit papers is April 15, 2010.*

Direct Student Papers and Questions to:

Dr. Ayman Mosallam, Professor of Civil Engineering, University of California, Irvine.
E-Mail: mosallam@uci.edu, Phone: (949) 824-3369.
